

# ENHANCEMENTS COMING SOON

FOR THE

Since 2006, Nebraska Career Connections, powered by Kuder®, has been the online resource of choice for students in Nebraska to learn about themselves, explore career options, plan for education, and prepare for the world of work, while at the same time, serving as a valuable tool for educators who use the system to monitor progress, plan curriculum, and support career guidance initiatives.

Together, the Nebraska Department of Education and Kuder are excited to announce that we're upgrading the system this month to feature the latest (and, we think greatest) version of Kuder Navigator®, redesigned to help your students visualize their futures — and make the plans to get there.

Below is a just a sampling of system enhancements that will be available September 27, following a short blackout period.

- **Fresh design and a new responsive interface** allowing for easy use from any device – laptop, desktop, tablet, and phone!
- **Expanded resources** including improved career assessments, enhanced education planner to support personal learning plan development, updated resume builder, and shareable portfolio.
- **New tools** such as My Goals for setting and achieving goals, and Finance 101, an in-depth financial literacy module.
- **Additional features for parents** and guardians in their free accounts.

Preview the new Navigator [here](#).

## No System Access/Blackout Period: September 20-26.

From September 20-26, you, your students, and their parents **won't be able to login or access the system** at [www.nebraskacareerconnections.org](http://www.nebraskacareerconnections.org) due to the transfer of system data taking place. We will be migrating the data of all users from the last three years. On September 27, the updated Nebraska Career Connections will be live, and logging in will be available using existing usernames and passwords.
